 I am disabled as described under the Internal Revenue Code.

Note: Internal Revenue Service rules allow only one IRA-to-IRA rollover in any twelve-month time period, regardless of the number of IRAs an individual has or the types of IRAs (including traditional, Roth, SEP, and SIMPLE IRAs). Exceeding this limit, even if the prior rollover involved a different type of IRA, will result in an excess contribution to your IRA subject to taxation and penalties. Roth conversions (rollovers from traditional IRAs to Roth IRAs), rollovers between qualified plans and IRAs, and trustee-to-trustee transfers – direct transfers of assets from one IRA trustee to another – are not subject to the one-per-year limit and are disregarded in applying the limit to other rollovers. You may want to consult with your tax advisor before making a rollover.

3. Payment Frequency (A minimum account value (per fund account) of \$5,000 is required to establish this service.)

For Class A, Class B, and Class C shares, annual withdrawals of up to 10% of the account value can be made without Contingent Deferred Sales Charge (CDSC).

- Replace existing SWP Add new/additional SWP

Withdrawals can be processed between the **15th and 31st** day of the month. Distributions will occur at the frequency indicated and will be processed on or about the same day of the month. Please allow at least 10 days from the day the form is mailed for the systematic withdrawal plan to start drafting.

If no frequency is indicated, withdrawals will be made monthly. If no day is chosen, or if a day that is not between the 15th and 31st is chosen, withdrawals will be made on or about the 24th.

Please start my withdrawals on the _____ (day) of _____ (starting month).

Make the withdrawal for the following amount (Complete one):

_____ per payment (\$50 minimum if made by check) or,

_____ % of account value per year (calculated each withdrawal) or,

_____ number of withdrawals until the account self-liquidates.

Class A, Class B, and Class C CDSC is calculated based on the account value on the date of the first payment and on the anniversary each year after. Effective January 4, 2016, for Class A shares, you may incur a CDSC when Class A shares are redeemed under the plan (or plans if more than one plan is established) if greater than 10% of the value of your account is withdrawn under the plan(s) in any one year (determined at the time of your first withdrawal under the plan(s), or January 4, 2016, whichever is later). Class A, Class B, and Class C CDSC calculation — if CDSC is due, payments will be net of CDSC (payment will be for the amount requested and additional shares will be sold to cover the CDSC) unless you notify us otherwise by checking the box below.

Payment amount should be reduced by any CDSC due.

TAX WITHHOLDING INFORMATION

Please complete and sign the attached Form W-4R to make a withholding election. Refer also to the list of states on the following page and submit the appropriate state form in addition to the Form W-4R, if applicable. The amount requested for distribution will be reduced by any tax withholding selected.

IRA Accounts

If a tax withholding choice is not made on the attached Form W-4R, applicable taxes will be withheld. Federal tax withholding will not be withheld from Roth IRAs.

Notice of federal withholding. The distribution you receive is subject to a federal income tax withholding rate of 10%, unless you elect on the Form W-4R not to have withholding apply. If you do not make a withholding election on the attached Form W-4R and sign the form, federal income tax at a rate of 10% will be withheld on the gross amount of the payment because we are unable to determine amounts not subject to withholding. You can elect out of withholding by entering 0% on line 2 on Form W-4R. You may also elect a different percentage (between 1% and 100%) on line 2. Even if you elect not to have federal income tax withheld, you are liable for payment of federal income tax on the taxable portion of your distribution. You may also be subject to tax penalties under the estimated tax payment rules if your payments of estimated tax and withholding, if any, are inadequate. MFS will also withhold state income taxes unless you elect not to have federal withholding apply if your address of record is in a state that requires state withholding (refer to the State income tax information on the next page).

Note: Distributions from Roth IRAs are not subject to federal tax withholding. For all Roth IRA distribution requests, if no withholding election is made, taxes will not be withheld.

403(b) Accounts

A. Mandatory withholding for eligible rollover distributions

Federal law requires MFS Service Center, Inc. to withhold federal income tax from your distribution at the rate of 20% unless it is rolled over directly to an IRA or other eligible retirement plan. You may also elect to withhold more than 20% on line 2 of the attached Form W-4R. The withholding is mandatory; you may not waive it. Please review the enclosed notice for additional information. Distributions which are not rolled over directly to an IRA or other eligible retirement plan and which are paid to residents of states that require state withholding (refer to the State income tax information on the next page) are subject to mandatory state income tax withholding. If your state requires withholding, MFS will withhold at least the minimum state tax regardless of your election. The mandatory withholding will automatically be applied to distributions paid directly to you unless the distribution is due to financial hardship or is due to Required Minimum Distribution.

B. For Required Minimum Distributions and Hardship distributions (Distributions not subject to mandatory 20% withholding)

To elect out of withholding or to request withholding at a rate other than 10%, you must complete and sign the attached Form W-4R.

Notice of federal withholding. The distribution you receive is subject to a federal income tax withholding rate of 10%, unless you elect on the attached Form W-4R not to have withholding apply. If you do not make a withholding election on the attached Form W-4R, federal income tax at a rate of 10% will be withheld on the gross amount of the payment because we are unable to determine amounts not subject to withholding. You can elect out of withholding by entering 0% on line 2 on Form W-4R. You may also elect a different percentage (between 1% and 100%) on line 2. Even if you elect not to have federal income tax withheld, you are liable for payment of federal income tax on the taxable portion of your distribution. You may also be subject to tax penalties under the estimated tax payment rules if your payments of estimated tax and withholding, if any, are inadequate. MFS will also withhold state income taxes unless you elect not to have federal withholding apply if your address of record is in a state that requires state withholding (refer to the State income tax information on the next page).

General Instructions

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See page 2 for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular

intervals over a period of more than 1 year) from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

2025 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See page 2 for more information on how to use this table.

General Instructions (continued)

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don't give Form W-4R to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can't choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don't give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding* above.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 1b

For an estate, enter the estate's employer identification number (EIN) in the area reserved for “Social security number.”

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$65,000 without the payment. Step 1: Because your total income without the payment, \$65,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$85,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Because these two rates are the same, enter “22” on line 2.

Example 2. You expect your total income to be \$61,000 without the payment. Step 1: Because your total income without the payment, \$61,000, is greater than \$26,925 but less than \$63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$81,000, is

greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. The two rates differ. \$2,475 of the \$20,000 payment is in the lower bracket (\$63,475 less your total income of \$61,000 without the payment), and \$17,525 is in the higher bracket (\$20,000 less the \$2,475 that is in the lower bracket). Multiply \$2,475 by 12% to get \$297. Multiply \$17,525 by 22% to get \$3,856. The sum of these two amounts is \$4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the \$20,000 payment (\$4,153 divided by \$20,000). Enter "21" on line 2.
